

THE MUTUAL BENEFIT LIFE INSURANCE CO.

Mutual Benefit Life Insurance Co.
Agents No 21 Wall St., N. Y.
Life Insureds secured by the System of Life
Insurance, now in successful operation in this country.
These intelligent persons, of the proper age,
and of sound constitution, will be assured at
the lowest rate of premium.
The premium, however \$500, can be paid one
month in cash, and three months in a secured note
for 12 months, bearing 6 per cent interest, and
subject to assessment if required, or it may be
paid weekly, monthly, or quarterly.
Annual division of profits in scrip certificates
which bear 6 per cent interest, and if re-
quired a loan of two-thirds on the scrip will be
made in cash, or the profits can be added to in-
crease the sum insured.

No person is liable beyond the amount
of their premiums, &c.

Debtors may insure the lives of
their husbands, secure from any demands of their
creditors, if the premium does not exceed \$300
per annum.

Creditors may insure their debtors, or
themselves, for the protection of credit-
tors.

An insurance can be made so that the
sum insured will be paid on attaining a specified
age, or sooner in the event of death.

All claims on policies will be paid three
months after notice and proof of death.

No risk will be taken on any one life ex-
ceeding \$5000, until the surplus profits amount to
\$50000; then the amount of risk on a single life

will be gradually extended as the funds of the
Company augment.

No Director or Officer can obtain a
loan of the Company.

When the net profits of the Company are
amount to \$200,000, the excess will be applied to-
wards the redemption of Scrip, giving priority to
that first issued; but the amount of \$200,000, in
addition to the reinsurance fund, will be kept as a
permanent fund, in which the members have a
perpetual interest.

The funds of the Company to be invested
by the Finance Committee in bonds and first
mortgage on unencumbered real estate, the actual
value, which is twice the amount loaned—viz in
stocks of the United States or of the States of N.
Y., New Jersey, Massachusetts, and Maine, or
loaned to members on their Scrip.

No part of the profits is withheld, or di-
vided from the assured in any way.

There is no stock or loss, either annual
or real, to pay interest for; the company having
ample capital in the premiums received.

It enables a man to provide for a wife and
children, in such a way, that although he may lose
all, they are safe; and all persons, whether married
or unmarried, to provide for old age, sickness, and
want, as well as for death.

It does not reckon the assured a year
older than he is—but from his mortal test, to six
months more, so as to equalize the same between
all parties.

It pays no directors, auditors, or solicitors.

A portion of the directors and the officers
are chosen yearly, and the members vote accord-
ing to interest.

The assured can surrender the policy at
any time after a term of years, and receive its equi-
table value.

Every precaution is taken to prevent a
foreclosure of policy.

The Mutual Benefit Life Insurance Company
is authorized by its charter to make all and every
insurance appertaining to or connected with Life
Insurance, of whatever kind or nature, and will grant
annuities and make endowments, as by the Act
of incorporation, passed the 30th January, 1845.

The Directors of this Company, deeply impressed
with the very great, useful, and growing importance
to the community at large of Life Insur-
ance, would call the attention of the public to the
following observations and principles, as intended
to explain to them its peculiar advantages, and the
particular features of this valuable institution: It
is seen above how extensive the privileges are
reaching to every risk appertaining to or connected
with life, guarding and supporting infancy to old
age, in all grades of professions and trades; or
plains, widows, and their children; by a small an-
nual investment, on the principle of Mutual Ben-
efit, arising from Mutual Insurance, being a self-
protective society. In this there is no Money
Stock; the funds or capital arise from premiums
paid in when persons make insurances; and these
form the means to make payments on policies
grant loans, pay expenses, and yield profits. All
persons insured become members, but are not li-
able beyond the amount of the premiums to be paid
by them. The books of the company are open to
them, to see that the sums paid, or securities re-
ceived, are deposited or invested according to the
charter, and the net profits, at fixed periods, are
divided among them, as hereafter explained. The
table of figures, and the rules, are made and cal-
culated with accuracy, after the experience and
practice of old English companies, and all persons
can see them how much they have to pay, and
the gains they will be likely to receive. This plan
pakes of the Savings Bank and Mutual Inter-
ests, affording the security of the one, and gain of
the other, and is entirely benevolent in its opera-
tions; it also embraces a provision for Married
Women to insure the lives of their husbands for
any amount, the premium of which shall not ex-
ceed \$300 per annum, and is secured to them
against any demands in law, of creditors.

The greatest portion of society, who by daily
exertions in industry, earn support, as artisans and
mechanics, deriving livelihood from personal labor
and skill, seldom resort to Life Insurance, in any
number, for a future provision for their families,
though, to none would, it be so important as to
them, who, by sickness and death, may in a day,
leave those nearest and dearest to them in poverty.

To men in mercantile pursuits, and those, in pro-
fessional business of every rank and class, or those
who have uncertain or small incomes, and who
are most numerous in wealth in the aggregate, and
have it in their power to provide against the vic-
tions to which they are constantly exposed to, Life
Insurance is also of the utmost importance; they, and
those in lower circumstances, are often deterred
from entering into contracts of insurance, as the
advantages appear remote, being contingent on
death, or ability to pay, the premium.

To assist all sides, this Mutual Benefit society
establishes the payment of the premiums, and of
returns, in part of the same, as to enable all per-
sons to become members, and enjoy its advantages
while living; thus protecting themselves in life,
and providing for their families after their death;
in this way a short life may obtain, and leave to
life, the benefit of a long one.

This Company will grant insurances on lives, on

any terms, & off to citizens, & others, &
against paying to sustain their
lives in the enjoyment of those valued blessings,
not knowing that in an instant, the cessation of
his life may throw them into a state of destitution.

Also, any person in sound health may insure \$500
for life upon his own or his wife's life, or the life
upon the life of his husband, of the age of thirty
years, (and in like proportion for other ages,) by
paying 20 cents weekly, or on \$1000, by paying
50 cents weekly, the policy always remaining with
the Company, with the premium paid endorsed
thereon; and in case of death they will be entitled
to the amount thus insured, deducting therefrom
the balance remaining of weekly payments, with
interest for the current year. No risk will be
taken for a single life for more than \$5000, until
the profits of the Company amount to \$50,000,
after which, according to the profits, the amounts
will be gradually extended to a sum not exceeding
\$15,000.

The better to enable all persons to insure, the
Company will annually issue Scrip certificates
of estimated profits, bearing interest at 6 per cent;
Whichever the accumulation of net profits of the
Company shall exceed the sum of \$200,000, the
excess may be applied from year to year, or semi-
annually thereafter, towards the redemption of
each year's certificate of scrip, in whole or in
part, as may be determined on by the board of di-
rectors, priority to be given to the scrip first is-
sued. The insured may borrow from the Com-
pany on his scrip, one third of the amount of the
same at any time, which will enable him to use a
portion of his profits for the payment of his annual
premium, even before the redemption of the scrip.
All classes of persons will thus be admitted and
enabled to meet the premiums, and have the gain
of the Savings Bank, with the profit on a large
business, by an actual small investment of outlay
of money.

All claims for insurance will be paid three
months after satisfactory evidence of the death of
the persons deceased is exhibited and approved.
Should it any time be desirable for a person to
sell his policy, where it is for life, the Company
will purchase the same at an equitable rate.

The funds of the Company to be invested
by the Finance Committee in bonds and first
mortgage on unencumbered real estate, the actual
value, which is twice the amount loaned—viz in
stocks of the United States or of the States of N.
Y., New Jersey, Massachusetts, and Maine, or
loaned to members on their Scrip.

No part of the profits is withheld, or di-
vided from the assured in any way.

There is no stock or loss, either annual
or real, to pay interest for; the company having
ample capital in the premiums received.

It enables a man to provide for a wife and
children, in such a way, that although he may lose
all, they are safe; and all persons, whether married
or unmarried, to provide for old age, sickness, and
want, as well as for death.

It does not reckon the assured a year
older than he is—but from his mortal test, to six
months more, so as to equalize the same between
all parties.

It pays no directors, auditors, or solicitors.

A portion of the directors and the officers
are chosen yearly, and the members vote accord-
ing to interest.

The assured can surrender the policy at
any time after a term of years, and receive its equi-
table value.

THE DAILY NEWS.

Newport:

TUESDAY APRIL 25, 1848.

BY O. R. JACKSON, 91-THAMES-ST.

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

FIVE DAYS LATER FROM EUROPE

The steamship Acadia arrived at Boston on Sunday afternoon, having sailed from Liverpool on the 8th inst. The European Times says that the general aspect of commercial affairs has not improved in any respect since the departure of the Hibernia. Indeed, the chances of a general European war, combined with the spirit of dissatisfaction which prevails among the Irish peasantry, and a large number of the operative classes of England and Scotland, have greatly aggravated the spirit of misrule entertained by the public at large.

The Times further says:—The alarming condition of Ireland, depicted in our last number, approaches daily and hourly nearer to a crisis, which cannot long be delayed. The students in Trinity College are arming in defence of the Government, and the members of the Royal Dublin Society are following their example. Additional troops have arrived from England. The Repealers in the city are equally energetic, one are being warmly supported throughout the provinces. At a meeting in Kilkenny, four delegates have been appointed to the "Council of Threes Hundred," admitted in defiance of the law. The Mayor and three magistrates are the delegates chosen. It was recommended at this meeting that the council should assemble at Liverpool, in order, so as to keep within the limits prescribed by the Convention Act.

Paris was quiet, and the last accounts from Lyons announce the complete restoration of tranquility in that city.

The elections for officers of the National Guard have, generally speaking, terminated in favor of the Republican candidate.

The Lyons Gazette of the 4th gives the following, under date of Chambery, 31st: "Savoy will to-morrow constitute itself a republic; a Provisional Government will be constituted, and the republic of Savoy proclaimed; the country will be immediately convened to decide on its political condition. There is in this no hostility to the King, who has given us very liberal institutions; nothing of disaffection to the French republic, for which we preserve our sympathies; nothing, in short, which prejudices any cause. This intelligence is, however, doubtful, and is not confirmed by the letter from Lyons, of the same date."

The Viceroy of the Emperor of Austria, who fled from Milan, was at Bolzen, a town of the German Tyrol, on the 29th ult., winning the issue of events.

The Milanese have sent an address to Pius IX., in which they subscribe to his Pontifical government of Italy.

The whale ship Margaret, formerly owned at this port, but sold to a house in New Bedford, has been bought back by her old owners, we believe, and will be here in the course of a few days. Capt. Fyles proceeded to New Bedford yesterday for the purpose of bringing her round.

CONGRESSIONAL.—The Senate was not in session on Friday.

In the House the subject of the late disturbances in Washington occupied the day. A statement of Mr. Giddings was read, detailing threats to Lynch him. No action.

It is stated that the vacant seat in Congress occasioned by the decision against Mr. Jackson, must remain vacant until next session, as by the laws of New York no extra election for Congress can be held except at the annual election in November.

Lady Franklin, wife of Sir John Franklin, who sailed from England in 1845 with a view of discovery a North-West passage round the globe, has offered a reward of £2000 with a view of encouraging our whaling ships to assist in the search for the missing navigator. £1000 to be divided among the crew of any ship discovering Sir John, and £1000 among the owners and officers.

INTERESTING FROM MEXICO.—The steamship America just arrived at New Orleans from Vera Cruz on the 15th inst., whence she sailed on the evening of the 16th inst., and arrived at Vera Cruz on the 16th inst., and landed her distinguished passengers, Gen. Kearny and the Hon. Mr. Sevier, amid salvoes of artillery from the castle, the frigate, and the forts in the city.

Gen. Kearny was installed as governor of the State of Vera Cruz, on Saturday, the 18th inst. He was to receive the troops in and around the city on Monday.

Mr. Sevier left Vera Cruz on the 18th inst., for the city of Mexico, under the escort of Capt. Tilghman's command, about sixty strong. Capt. Tilghman escorted Santa Anna from Jalapa to Antigua. Santa Anna did not sail till Wednesday, the 21st inst. From the Acco Iris, we learn that he took his passage in the Spanish brig Marlin.

The Watch Tower of Jalapa is crowded with interesting intelligence in relation to Santa Anna's departure. He was overwhelmed with courtesies on the part of Colonel Hughes and our officers, which he reciprocated as far as was in his power. He was evidently deeply touched by the respect paid to him in his misfortune.

Capt. Milton arrived at Vera Cruz on the 5th inst., from the city of Mexico, with despatches for Washington. He reports that the road was infested with small bands of armed men, masked, who commit depredations daily on the road between Mexico and Jalapa, plundering the diligences, &c. The route between Mexico and Toloco is infected in like manner.

The election in the city of Mexico took place on Sunday the 2d inst. Every thing went off quietly. The American troops, agreeable to orders, marched out at 8 in the morning by the Peno gate, leaving only the proper guard. They remained till after the polls were closed at 3 o'clock. In Vera Cruz they had a report that the Mexicans took advantage of the withdrawal of the troops and rose and pronounced,—

It was "a week invention."

Several conspirators against the existing state of things have been arrested in Oaxaca, and are about to be tried for the offence.

The Star has the following paragraph in relation to the redoubtable General Alvarez:— "Letters received in the city agree in stating that Alvarez is about getting up a pronunciamento in the South. This is hardly credible, when we remember that this general has made public protestations of his adhesion to the supreme government. Perhaps he is determined to take advantage of the armistice to set his own countrymen by the ears—knowing that the Americans are barred from making any interference."

The steamer Washington which sailed from New York on Thursday last for Liverpool, returned on Saturday, having broken her machinery.

COLONIAL.—The steamer Worcester, while in Hullgate Friday evening, was run into by a schooner, and her bulwarks were badly stove in. In getting clear she lost one of her anchors.

We are indebted to the Hon. S. W. Inge, of Alabama, for a copy of a speech delivered by him in the House of Representatives on the 22d of March, on the relations of the parties to the Mexican war.

COMPLIMENTARY.—Doctor Colyer, the manager of the model artists, declares that the ladies of New Orleans are entirely destitute of the taste which he seeks to gratify. May be so, but they at least have decency.

HEALTH OF THE ARMY.—A letter to the New Orleans Crescent, dated Mexico, Feb. 26, says:—"The health of the army, though better than it was a week ago, is still far from being good. Twenty-six hundred would not cover the list of those now in the hospitals, and under medical treatment.

A new contract has just been entered into by the Post Office department for carrying the mails throughout the States, of New Jersey, Pennsylvania, Delaware, Maryland, and Ohio, and more than one hundred thousand dollars are saved by this contract, over the one of last year.

The profits on the line of Telegraph between Baltimore and New York, are said to exceed \$1000 per month, or about 30 per cent. per annum on the investment.

The profits on the line of Telegraph between Baltimore and New York, are said to exceed \$1000 per month, or about 30 per cent. per annum on the investment.

The Secretary of the Treasury has

THE STREAMER AMERICA.—The new steamship America just added to the Cumberland line, is described by the Scotch and English newspapers as being a very splendid and superior vessel. She is now on her first voyage across the Atlantic—her day of leaving Liverpool being the 15th inst.

She goes to New York, is commanded by the veteran Captain Jenkins, the senior officer, in the service of the Cunard Company, who has, in succession, and by promotion, commanded all the steamships built for the line, with one exception.

The crew consists of 100 men—35 in the engine, 35 in the steering and 30 in the steward's department. The Glasgow Examiner says:—

"The America is unquestionably a magnificent vessel, both as regards size and strength. She is built of different layers of planks, which amount to a foot in thickness, and the lower part of the fashion of whalebone, has an additional outside lining of planks about three inches thick. With a full complement of passengers, for whom splendid accommodation is being prepared, along with her crew, she may carry about eight hundred persons. The fitting up is in a style of magnificence never before seen in the Clyde. The berths are roomy and elegant, the cabin gorgeous, and the various departments all commodious and elegant."

But if it is possible to give some idea of the vessel, the engines baffle description.—

Their magnitude and splendor upset all former ideas of engineering greatness, and throw the engines which we have long ad-

miried, completely into the shade. Each of the four boilers is about sixteen feet long,

twelve feet broad, and twelve feet high.

They are built of the best iron, and the workmanship is most masterly."

YOKO-SAN.—The New Orleans Delta has received a copy of Maj. Gen. George Washington Dixon's proclamation to the Yucatecos, from the Senor Don Ramon Rodriguez, in which he calls on that noble race, who are at present shut up in their towns by parties of naked Indians, to rally around him as a pioneer of liberty, equality, and fraternity. "We cannot publish the

whole of the General's magnificent manifesto, but the following, we think, is quite equal to La Martine:

Yucatecos, let the glorious spirit that is

inspired you to stand by yourselves

and guard with an eagle eye your republi-

cian territory. Already the "death knell of

tyranny" has been sounded from Paris, and

ere long the "Flag of Liberty" will float

from pole to pole, over land and sea, and ev-

ery throne where kings and tyrants occupy

will be crumbled to dust by the magic

touch of the wand of the Genius of Liberty.

Yucatecos, when my sires commenced the

American Revolution, which gave birth to

"freedom and equality," a patriotic son of

France, Gen. Lafayette, generously went to

their aid; and America now sends among

you her "sons of seventy-six," who are

ready and willing to be placed in the front

ranks of the battle, where the blows fall

thickest and fastest, until the savage for-

ce is exterminated, and the banner of "God

and the Education of the People," waves

triumphant over the length and breadth of

your beautiful country.

G. WASHINGTON DIXON.

Commander-in-Chief of the Pioneers of Liberty.

NOVA SCOTIA MACKEREL.—The Gloucester Telegraph states that "over forty

thousand barrels of mackerel have arrived

at Boston from the British Provinces,

since the 1st of September last." The low

price at which these mackerel are sold,

causes them to form a large part of the

import of the article from Boston to the

West Indies, particularly to the Island of

Hayti.

CONTRADICTED.—The Washington Uni-

on contradicts the report that Mr. Morey

would soon resign from the War Depart-

ment to go as Minister to Russia, and that

he would be succeeded in the Cabinet by

Gen. Franklin Pierce.

LOUIS PHILLIPPE.—Louis Philippe was born October 6th, 1773. He is therefore in his seventy-fifth year.

SALISBURY REGISTER.—The Salisbury Register states that Horace Mann does not intend to resign his of-

fice as Secretary of the Massachusetts

Board of Education.

SECRETARY OF THE TREASURY.—The Secretary of the Treasury has

advertised for the loan \$16,000,000.

Extract of a Letter dated: Curacao, March 19:— Owing to there being no salt at Boneiru, the owners of salt at this island have advanced the price to 35 and 40 per barrel, and in some cases a higher price is demanded?

BENEFIT OF ADVERTISING.—A person advertised a boy wanted. Some one left at his door an infant in a hand box with this inscription. How will this answer?

PARKET STREAMERS.—The packet steamers between Pittsburgh and Cincinnati, are taking cabin passengers at two dollars and found.

MARRIED.

In this town, yesterday afternoon, by the Rev. Mr. Brewer, Mr. Isaac Bachelor, of Boston, and Miss Mary Eliza, only daughter of Robert P. Lee, Esq., of this town.

MOST EXTRAORDINARY WORK.—**THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION.**

By Dr. A. M. MAURICEAU, Professor of the Diseases of Women.

Sixth ed., 18mo, pp. 230. Price \$1.

Twenty-five thousand copies sold in Three Months.

Years of suffering, of physical and mental anguish to many an affectionate wife, and pecuniary difficulties to the husband, might have been relieved by a timely possession of this work.

It is intended especially for the married, those contemplating marriage, as it discloses important secrets which should be known to them particularly. Truly knowledge is power. It is health, happiness, affluence.

The revelations contained in its pages have proved a blessing to thousands, as the innumerable letters received by the author will attest. Here, also, every female can discover the causes, symptoms, and the most efficient remedies, and certain mode of cure, in every complaint to which her sex is subject.

On the receipt of One Dollar, the "Married Woman's Private Medical Companion" will be sent (mailed free) to any part of the U. S. All letters must be addressed, post paid, to Dr. A. M. Mauriceau, Box 2121, New York City. Publishing Office, 129 Liberty street, New York.

Travelling Agents are informed that a few districts in Mass., and two other Eastern States, are yet unengaged. Application received (postpaid) as above.

Strawberries.

Mr. Newland, of Palmyra, Wayne Co., N. Y., is the proprietor of the MAMMOTH ALPINE, is in this place with his plants. The numerous testimonials from the most respectable inhabitants of Palmyra, are undoubted evidence of their superior quality to any others, continuing, as they do, to produce ripe fruit for over 2 months.

Persons wishing plants will please to leave their address at the boarding house of Joseph Fish, on Broad st., near the State House, or call on Mr. N. as he is distributing plants throughout the state.

The following extract we copy from the *Argus of Lockport*, N. Y.

W. M. COZZENS & CO.—**Spring Goods.**

Coming in part of Tweed's oats, and Sacks, of very superior quality and style, Dockin Fents, custom made, in the latest styles, which, for quality and make cannot be surpassed. Spring Vests of choice patterns, made on purpose for my trade.

Also a large and splendid assortment of Hats, Caps, and furnishing Goods, which are warranted to give satisfaction to all. A superior quality of Oil Cloth and Steamer's Clothes on hand.

Apri14 J. H. COZZENS.

Mutual Benefit Life Insurance Co.,
No. 91 Ship Street, Providence.

A life is secured by the System of Life Insurance now in successful operation in this company.

1st. Those in good health, or the proper age, and of sound constitution, will be insured at the lowest rate of premiums.

2nd. The premium, if over \$50, can be paid one-fourth in cash, and three-fourths in a secured note at 12 months, bearing 6 per cent. interest, and subject to assessment as if paid; or it may be paid weekly, monthly, or quarterly.

3rd. Annual division of profits in scrip certificates which bear 6 per cent. interest, and if required, a loan of two-thirds on the scrip will be made in cash; the profits can be added to increase the sum insured.

4th. No persons liable beyond the amount of their premium.

5th. Married women may insure the lives of their husbands secure from any demands of their creditors, if the premium does not exceed \$300 per annum.

6th. Creditors may insure their debtors, or debtors themselves, for the protection of creditors.

7th. An insurance can be made so that the sum insured will be paid on attaining a specified age, or so near in the event of death.

8th. All claims on policies will be paid three months after notice and proof of death.

9th. No risk will be taken on any one life exceeding \$3000, until the surplus profits amount to \$5000; then the amount of risk on a single life will be gradually extended as the funds of the Company augment.

10th. No Director or Officer can obtain a loan of the Company.

11th. When the net profits of the Company amount to \$200,000, the excess will be applied towards the redemption of Scrip, giving priority to that first issued, but the amount of \$200,000, in addition to the reinsurance fund, will be kept as a permanent fund, in which the members have a *prorata* interest.

12th. Two funds of the Company to be invested by the Finance Committee in bonds and first mortgages on unencumbered real estate, the actual value of which is twice the amount loaned—for stocks of the United States, or of the States of N. York, New Jersey, Massachusetts, and Maine; or loaned to members on their Scrip.

13th. No part of the profits is withheld, or divided from the assured in any way.

14th. There is no stock or loan, either nominal or real, to pay interest for; the company having ample capital in the premiums received.

15th. It enables a man to provide for a wife and children, in such a way, that although he may lose all, they are safe; and all persons, whether married or unmarried, to provide for old age, sickness, and want, as well as for death.

16th. It does not reckon the assured a year older than he is—but from six months less, to six months more, so as to equalize the same between all parties.

17th. It pays no directors, auditors, or solicitors.

18th. A portion of the directors and the officers are chosen yearly, and the members vote according to interest.

19th. The assured can surrender the policy at any time after a term of years, and receive its *equitable* value.

20th. Every precaution is taken to prevent a forfeiture of policy.

The Mutual Benefit Life Insurance Company, is authorized by its charter to make all and every insurance appertaining to or connected with Life Insurance, of whatsoever kind or nature, and will grant annuities and make endowments, as by the Act of Incorporation, passed the 30th January, 1815.

The Directors of this Company, deeply impressed with the very great, useful, and growing importance to the community at large of Life Insurance, would call the attention of the public to the following observations and principles, as intended to explain to them its peculiar advantages, and the particular features of this valuable institution. It is seen above how extensive the privileges are, relating to every risk appertaining to or connected with life; guarding and supporting infancy to old age, in all grades of professions and trades; orphans, widows and their children, by a small annual investment, on the principle of Mutual Benefits, a rising from Mutual Insurance, being a self-protective society, in this there is no Money Stock; the funds or capital arise from premiums paid in when persons make insurance, and these form the means to make payments on policies, grant loans, pay expenses, and yield profits. All persons insured become members, but are not liable beyond the amount of the premiums to be paid by them. The books of the company are open to them, to see that the sums paid, or securities received, are deposited or invested according to the charter, and the net profits, at fixed periods, are divided among them, as hereafter explained. The tables of figures, and the rules, are made and calculated with accuracy, after the experience and practice of old English companies, and all persons can see by them how much they have to pay, and the gains they will be likely to receive. This plan protects the Savings Bank and Mutual Interest, affording the security of the one, and gain of the other, and is entirely benevolent in its operations; it also embraces a provision for Married Women to insure the lives of their husbands for any amount, the premium of which shall not exceed \$300 per annum, and is secured to them against any demands in law, or creditors.

The greatest portion of society, who by daily exertions of industry earn support, *asartisans and mechanics*, deriving livelihood from personal labor and skill, seldom resort to Life Insurance, in any numbers, for a future provision for their families, though to none would it be so important as to them, who, by sickness and death, may in a day, leave those nearest and dearest to them in poverty. To men in mercantile pursuits, and those in professional business of every rank and class, or those who have uncertain or small incomes, and who are most numerous in wealth in the aggregate and have it in their power to provide against the vicissitudes they are constantly exposed to, Life Insurance is also of the utmost importance; they, and those in lower circumstances, are often deterred from entering into contracts of insurance, as the advantages appear remote—being contingent on death, or ability to pay the premiums.

To assist all such, this Mutual Benefit society so arranges the payment of the premiums, and of returns, in part of the same, as to enable all persons to be some members, and enjoy its advantages while living; thus protecting themselves in life, and providing for their families after their death; in this way a short life may obtain, and leave to heirs, the benefit of a long one.

The Company will grant indemnities on lives, so

as to be of the same, as to enable all persons to be some members, and enjoy its advantages while living; thus protecting themselves in life, and providing for their families after their death; in this way a short life may obtain, and leave to heirs, the benefit of a long one.
